CIRCULAR

Sub: - Disposal of serum from latex centrifuging units.

Ref: - Circular No. PCB/HO/KKD/GEN/3211/03/2009 dated 11.04.2012

The circular under reference cited is hereby modified as follows:

It shall be verified and ensured that the latex centrifuging units have adequate facility to treat the entire serum produced from their unit before issuing consent to operate/renewal. For units which don't have their own facility, it shall be ensured that their serum is transported for treatment to any Board approved common effluent treatment facility. The common Effluent Treatment Plant shall comply with all the norms of the Board and shall have online monitoring facilities and facilities for transferring data on quality of treated effluent to the central server of the Board. The vehicles transporting the serums shall have GPS facilities. In no case serum shall be used as a raw material for any industry for the production of skim crepe or other materials.
